

Shibboleth InCommon Directions

Student Success
Staff Support
Site Safety
Smart Statistics

CalState S4 has two Service Providers defined in In Common, the production version has an EntityID of <https://app.calstates4.com/> and a development version that you don't need to worry about. Only the production SP needs to be added to your IdP configuration.

The following should be noted when releasing attributes:

- We use transient NameIDs as well as regular user attributes, so the policy should allow for transients.
- We need access to the following attributes:

Transient ID

- **eduPersonPrincipalName**
urn:oid:1.3.6.1.4.1.5923.1.1.1.6
- **mail**
urn:oid:0.9.2342.19200300.100.1.3
- **calstateEduPersonEmplID**
urn:oid:1.3.6.1.4.1.10396.2.1.1.3

(currently not necessary to release this attribute but maybe in the future)

- **displayName**
urn:oid:2.16.840.1.113730.3.1.241

CalState S4 is a platform that allows campus programs to manage site information, maintain communication, collect forms, capture and review student placements, and illustrate your campus' impact on your community.

CalState S4

A project of the CSU Center for Community Engagement
