

Dear [\[your MP's name\]](#) MP,

We're writing on behalf of [\[your group's name\]](#), a group of concerned residents from across [\[your constituency\]](#) to **request a meeting with on Saturday 12 October**. We're part of the nationwide day of action organised by The Climate Coalition to create change for people, climate and nature.

As you may know, following a successful legal challenge by Friends of the Earth and others, the government has to write a new climate plan in 2025. This must set out how the government will meet the UK's international commitment to cut carbon emissions by over two-thirds by 2030. We're dangerously off track for this target and the government's official advisors, the Climate Change Committee, have said that 'urgent action is needed' to meet it.

We believe the climate plan must be ambitious, comprehensive and fair. To do this, it must:

- Keep the government's promises to cut carbon emissions with policies that add up, developed with expert and public input.
- Invest in the future by fairly financing local, national and international climate action.
- Ensure everyone can live in a warm home powered by cheap, clean energy.
- Deliver affordable, reliable public transport and clean air.
- Help people find well-paid green jobs by providing investment and training, especially for sectors and places most at risk of being left behind.

This would not just cut carbon emissions, but also help people in [\[your constituency\]](#) and around the country through lower energy bills, warm homes, clean air, better public transport and well-paid green jobs. [You could drop in a couple of key facts from Friends of the Earth's 'Near You' tool about, for example, how many people in your constituency live in cold homes or don't have access to green spaces.](#)

We look forward to hearing from you and to discussing how we can work together to address these vital issues on 12 October.

Best regards,

[\[your names\]](#)

[\[your group\]](#)
