**HUSHIDA**®

Interactive Smart Flat Panel – Model D1 65"

November 24th, 2023

◉ 4K UHD   ◉ Anti-Glare Screen   ◉ Android

Guangdong HUSHIDA Electronic Technology Co.,Ltd.

Product Features

- 4K ultra-high-definition display supports full-channel 4K UI display; it uses AG anti-glare glass with high haze OC to resist ambient light interference, and the display screen is soft and clear
- All-metal ultra-narrow frame design, simple appearance, dual magnetic pens on the front, easy to take in and out before and after use; zero lamination process, low parallax writing, wider viewing angle
- Computer modular design, OPS/pull-out PC setting, easy maintenance
- Android/Windows dual system support, one-click switching, compatible with more software, to meet more needs
- Electronic whiteboard: Smooth writing, supports 20-point touch, annotation, drawing, erasing, image zooming and rotation, and supports one-click saving of whiteboard content by scanning QR code with mobile phone
- Wireless screen projection: supports wireless screen projection, multi-screen function on the same screen (supports Android, Windows, IOS, Mac/OS), supports 4 devices on the same screen at the same time
- Remote video: supports remote video conferencing, multi-party remote meetings, remote PPT lectures, remote desktop sharing, supports smooth, SD, and HD modes
- Meeting reservation software: The meeting cloud is initiated in advance, and participants are reminded of time and location information. They can enter the meeting by swiping their faces on-site to achieve efficient meetings.
- Conference training: Built-in office, picture viewing, video player and other office practical tools, built-in wireless WIFI, network card, support for wireless Internet access, support for synchronous transmission of pictures from mobile phones, tablets, Pads and other devices to the tablet, support for remote multi-party remote meetings, remote PPT speech, remote desktop sharing
- Commercial display: Customize the startup screen, theme and background, the local media player supports automatic classification to meet the needs of different occasions; built-in professional multimedia playback software, the playback software supports split-screen playback (one split screen, two split screens, three split screens) ; Optional interactive touch inquiry system, government affairs inquiry, company introduction, cultural promotion, business introduction, turning the conference machine into a self-service inquiry machine

Specifications

Display

Size	65 inch
Screen Type	ADS
Aspect Ratio	16:9
Responsive Time	8ms
Displaty Area	1428.48(H)×803.52(V)mm
Resolution	3840(H)×2160(V)
Pixel Pitch	0.372mm×0.372mm
Refresh Frequency	60Hz
chromaticity	1.07b(10 bit)
Color Gamut NTSC(Typ)	72%
Contrast(Typ)	1200:1
Viewing Angle	178°(H/V)
Backlight Type	D-LED
Screen Brightness(Typ)	350cd/m²
Life Time	≥50000 hours

Operation System

System Version	Android 11.0
Ram	3G
Rom	32G
CPU	T982 4*A55
GPU	Mali-G52MP2
Interface	HDMI IN*2, USB 2.0, USB 3.0, TOUCH 2.0, MIC IN, VGA IN, AUDIO IN, AUDIO OUT, SPDIF, RS232, RJ45 IN, USB Type-C IN(USB2.0), TOUCH 2.0

Touch

Type	Infrared
Input	Fingers / Passive infrared pen / active infrared pen
Touch Precise	±1.5mm
Touch Points	20 points
Minimun Touch Points	3mm
writing height	≤3mm
Writing Display	Double pen and double color
Response time	≤10ms

Speaker

Power	2x16w(2.0)

Electrical

Power Input	100-240V∼50/60Hz
Max power consumption	325W

Physical Parameters

Machine Size (l × w × t)	1484.2(H)×887.2(W)×86.2(D)mm
Packaging size (l × w × h)	1600(H)×1035(W)×200(D)mm
VESA hole (l × w)	600×400mm
Wall mounting screw	M8×25mm
Net Weight	/
Gross Weight	/

Accessories

Power Cable	X1
Stylus	X2
Wall Mount Bracket	X1

Enviroment

Working Temperature	0℃~50℃
Working Humidity	10%~90%RH
Stocking Temperature	-20℃~60℃
Stocking Humidity	10%~90%RH
Working Altitude	Below 5000meters
