

Anonymous Online Information &

This information should be presented to participants at the very beginning of your online questionnaire. It can be displayed on a dedicated information page before participants proceed to the actual survey questions. Alternatively, you can incorporate it as the first question or "screen" within the survey platform itself.

Questionnaire Consent

Title of Project: [Add Title Here]

Researchers: [Add Researcher Names and DMU Email Addresses]

About the Survey:

This survey explores [briefly explain what you're investigating]. You will be asked to [e.g., read a short story and answer related questions]. Completing the survey should take approximately [estimated time in minutes]. There are no known risks associated with participation.

Confidentiality:

Your responses will be anonymous in all published research findings.

Participation is Voluntary:

Your participation is entirely voluntary. You can withdraw at any point by exiting the survey. If you exit before submitting your answers, your data will not be saved.

Clicking the box below indicates that you have read this information and agree to participate under the above conditions.

I give my informed consent to participate in this study.
