What is it? Story?

Insider’s Guide:

Story Art is art of Capturing a moment of Sharing time and crystallizing that with intention to take someone beyond the moment they are in.

The The best stories grab attention and move it into awe. of The event itself is revealed... telling the viewer (reader) what transpired and what result it has.

Sometimes, what is revealed can only be accessed hours, days or even decades later. of Story to attract and enthrall while delaying the power of impact of The tale must be told until the recipient is ready to receive the reward.

There is magic in the way stories intertwine with time. Time collapsing to bits, and time recoded according to the intentions of the teller. The Most powerful stories are told between times, when time is suspended so the listener can take part. of You will leave the experience with everything you have learned and not having to pay the price of Time itself is like Ebenezer Scrooge emerging from his night. of Ghost visits of Christmas is a new man born. Even though he was a part of many stories of He slept for a whole night, and woke up the next morning as if there was no time. of He was granted grace and miracles after a night of sleepless nights of The entire story is relived of His life.

Story It has the power of transformation and it can make you a magician of Sorts, a shaman who has the ability to heal or cause harm. Story You can shape the future, not just the past. Use it wisely.
