

Topic: Closing the Year with CSC

Overview

This module will prepare you to use the Caring School Community Closing Week. This week should be used during the last week of school and is designed to help students reflect on progress they made individually and as a group. This week is also designed to support bringing closure to the school year, celebrating success, looking forward to new beginnings, and saying goodbye.

Engage & Learn

Consider: Are students able to name the learning that has been important to them this year? Are students able to reframe their learning into larger lessons or takeaways? Can students name how the learning will be beneficial in the future?

Read:

- The closing week for your grade level

Practice & Apply

Try This:

- Spend time thinking through your plan for the final weeks of school. What parts of the closing week would you like to do with students?

Reflect:

- What is important to you to include in the closing of the year for yourself?
