Sub: I made \$2.5K  by selling PLR and offers around it in just a week  The Last 1 day to avail the FREE Set Up  

Hey {first_name}

This is the biggest milestone.  I achieved this in my two-and-a-half-year entrepreneurial journey, and I am so glad

and thankful for everything because of my viral PLR offer, which helped me make \$2.5K in sales in just a week.

So, here is a little bit about how I did this-

 Added a lot of value in people's lives with 10+ systeme.io funnel templates and promoted them everywhere on FB.

 With these freebies, I collected 1.8 K subs, mostly my ideal audience.

 Created and nurtured my FB community and grew it to 830 in just two months

 Previously, I had created one \$7 digital product around a systeme.io template called the '5-day challenge toolkit'; yes, I am still selling that on repeat.

 Crafted one irresistible offer around the PLR to test if it works. I never thought I could ever promote PLR; as I bought it for myself and not for selling purposes at all.

 I nurtured my email list with a series of e-mailers to help my audience take action and buy this amazing [PLR magic bundle](#).

 I constantly created posts and stories and documented my complete journey of the PLR selling thing. (this is the most important thing; even if you get one sale, talk about it; people are watching you  )

And BOOM   I made more than \$2.5 in a week.

So, if you are looking forward to adding passive income to your income sources, then I would say this is the best opportunity. 

The [Systeme.io](https://systeme.io) is the best software, and all their products are. This PLR product is the combination of 8 such great courses.

The best part is

You will get a **FREE PLR setup worth & \$77 from me,**

and you will be **Ready to Sell in just 5 days**  

From the day you buy it. 

So, what exactly you will get with this PLR Free Set Up

2. Setting up a payment method where one pays with the payment plan if needed
3. Test the purchase to ensure everything is working in your favor.

I remember exactly 1 and a half months back; I had a chat with my sister that I may need her help regarding finances 😬.

Cause I am facing some downtime in my business. (I was making good money but was not keeping it;

you know what it means as an entrepreneur, right 😂)

And from that day to today, things are entirely different.

I strategically worked around my passive income thing cause working with clients was a kind of unpredictable income for me.

In the past week, I made \$2,851 in total. (these are recent stats)

This is all through [Systeme.io](https://systeme.io)!

Whether it's an affiliate program, a PLR Course, or the software itself,

everything is just so great that I can't stop talking about it.

Sub:The Countdown Begins ⏳ Only 5 Days Left ⏳ to Get {FREE} PLR SET UP with 2 Amazing Bonuses 🎁

Hey {first_name}

Do you know how much I have made till now with my Viral PLR offer?

It is more than \$5.5K in just 18 Days !!

Out of which I made **\$4K (in 8 days)** With PLR first Launch 🎁

And 16 Sales on the last day of my first launch 🎁🎁

These stats are giving me goosebumps cause I had never experienced this before in my business!

It all feels like a dream come true!

But was it all easy?

I won't lie, it wasn't!!

I have been trying hard for the past 6 months to have a passive income source!

I created one small offer around my expertise, My Own Digital Product Called ' 5 Day Challenge Toolkit.'

I sold 5 of them on the same day I launched it! (all organically)

But the sale went down in a week, and I planned the freebie around my offer

and BOOM 🎉

The 7 sales followed on the same day I launched my freebie!

My '**5 Day Challenge Toolkit**' is a low ticket offer, and I am still selling it, but honestly, I am not making so much money from it (as it is just \$7!)

BUT!

I am so very proud of my own creativity and my unique offer, which has been praised so much by my buyers!

The most amazing thing that I learned from this '**5 Day Challenge Toolkit**' product launch is that

📦 How to Launch Digital Products!

📦 How to Do Pre-Launch Preparation

📦 Once you launch it **How to Drive Quality Traffic** to your Digital Product Landing Page

📦 How to fill up your funnel with the ideal audience

📦 How to win them

and much more...

And now this PLR launch made me more focused and has widely opened my eyes, about the whole digital product business!

It's huuuuuuuuuuuuuuuge 🤑🤑

Now, I am concentrating on this so much that I am planning to announce something amazing on the last day of the workshop!

My Secret Offer 🤫 that will blow your mind!

So, if you are curious about knowing more about my upcoming offer and also want to steal my strategies around successful launches, then

Only ⌚ 3 Days Left ⌚ to Get Your PLR By Systeme.io With 3 Amazing Bonuses 🎁

Hey {first_name}

I never thought the Digital Product Business could be so huge, even if I have been in the industry for over 6 years!

Even though I started my entrepreneurship to create a passive income (side hustle) I have been struggling hard to keep going at my day job

because of several problems in my personal life.

I had been running 2 blogs where I failed so hard and did not earn a single penny out of it!

But I believe everything happens, happens for a good cause. It's a life, and it's worth living, no matter how many failures you face in your life!

Actually, there is no such thing called failure; it's a part of success!!

Isn't it?

It's a part of the learning phase; no one gets overnight success.

Today, I am so glad that I never left learning or failing, and now I can see so many positive outcomes of everything I did in the past 2 and half years in entrepreneurship!

Yes, it isn't easy, but it isn't that difficult too!

You have to trust the process, and you will be there like millions of other online business owners!

One more thing I will tell you from my experience: In the online world, it is enough for everything!

You don't have to struggle a lot (if you have a little guidance) to get a few sales or the first sale for your digital products or online business.

If you are ready to adopt new strategies, experiment with anything that comes to your mind...

And lastly, keep gooooooooooooooooooing.

I have heard this thing several times from a lot of my online friends, well-wishers, and followers -

"Nitz, you always take risks and experiment with new things., how do you do that?"

Honestly, I love experimenting with new things because it empowers me with new strategies and new techniques that open my mind and my vision.

It helps me understand my clients buying journey at a deeper level, what exactly they are looking after from me, my services and products, and much more!

And

This complete PLR launch thing

Was another experiment that helped me make more than \$5.5K this month

(I need to count the precise number; I am keeping super busy with the launch 🤪🤪 as a solopreneur.)

If you know marketing and entrepreneurship are all risky, you never know what can bring that highest 'cash in months' to your business.

So, I would say keep experimenting; it is all worth it!

This PLR thing is the best opportunity for you to learn and earn at the same time!

Buy this PLR and start painting a picture of a financially abundant life!
