issue
19. We found a way to _____ and build _____
20. Accept our neighbours' _____ (eccentricities)
21. To be less dogmatic and _____
22. To get _____ better with others

Coming home from work
The idea of left-overs is not appealing
You catch a whiff of red chilly baking
Imagine being left hopeless
Bedridden for 3 months
Community at its best
They took turns delivering me with home-made meals
They showered me with comforting words
You jointly own the community house
A feeling of belonging and mutual support
A spacious house with beautiful views of the mountain
Something was missing
I took the scary leap and bought a house
We range in age from 6 to 96
A proud and feisty English woman
She intended to live and die in her own terms
Any special wishes for her memorial service
We gathered around her
A flood of love and laughter
I'm dying; yet, these are the happiest moments of my life
It has its challenges
We struggle to reach agreements
The eventual outcome was...
A seemingly small issue
A community clothes-line
We found a way to compromise
Valuable interpersonal skills
To build consensus
Accept our neighbours' quirks (eccentricities)
To be less dogmatic and judgemental
To get along better with others
