Security doesn't start with a password, but with the right decisions.
Summer is in full swing,and so is  the #SolanaSummer bounty from @SuperteamUKR - anyone can post photos and videos of how they're spending it ☀️.
Everyone else is out there posting from nature🌴 and the sea 🌊, while I’m over here like that duckling from the meme “Give me back my 10 hryvnias (dollars)!” 😂 – desperately hunting for some SOL to stake for my node.
That's *my* Solana summer 🥲💪....

*A Solana staker in summer 2026*

*Meanwhile… a validator with a low stake in Solana summer 2026*

Just stake, don’t be a steak!
Just kidding… 😉)
And also, let me remind you: your security always begins with making the right decisions.
