

Dear Parent/Guardian,

It will be a requirement for ALL Algebra , Algebra II, Trigonometry, Statistics, Pre-Calculus, and Calculus students to purchase their own graphing calculator for the 2022-2023 school year. The Howland High School Mathematics Department recommends that each student have the TI-84 Plus CE. This is the device that will be used by our mathematics department for instruction. This device is also approved to use during the ACT test. If you have a hardship in purchasing your own graphing calculator please communicate this with your child's teacher and you will be offered assistance. We appreciate your cooperation and look forward to a positive and productive school year.

Sincerely,
Howland High School Mathematics Department
