**These wonderful experts, among many others, will accompany you on this journey:**

 Ilona Selke teaches us about life through vision, connecting with dolphins and whales on a very high vibrational frequency, and the importance of caring for children and raising them protected, free, and loving.

✨ Lisa Denning is an underwater photographer and filmmaker. From dolphins and whales, she has learned what she couldn't learn from people; at the same time, she has experienced emotional and physical healing. Above all, she has learned to make decisions from the heart and to take things one step at a time.

 Hydee Tehana describes not only beautiful encounters with whales and dolphins but also her life-changing transformation. The dolphins and whales awakened her memories, helping her know who she truly is.

✨ Linda Shay brings the Dolphin Spirit from the sea to land and supports people in rediscovering joy in life with her cheerful nature. She also shares the knowledge and gifts she has received from the dolphins in her courses.

 David Rosenthal channels a dolphin consciousness that appears as a golden dolphin, who may be named Archie. David co-directs Dolphin Heart World with Linda Shay.

✨ Margit Mayra Fuchs follows her heart and believes that we find our purpose when we do. Dolphins and whales ultimately inspired her to sing and touch people's hearts with her choir.
