New WP Plugin Automatically Adds Your Link When People Steal Your Content!
Get Your Visitors Sharing Your Content
Your Visitors will create your backlinks...

Hey {!firstname_fix},

This brand new "Covert" Traffic plugin is not just going to mess with your head, it's going to more than double the traffic you get from the "old school" method of sharing that isn't ever going away...

check it out here: -

<<<<< Your Affiliate Link >>>>>

It automatically inserts your link whenever people steal (or share) you content!

This is huge because recent stats have shown that up to 70% of all social sharing is done by simply copy and pasting the content to email...

In fact 6% of all your blog visits may result in a copy and paste share you get zero credit for!

But not anymore, with this new plugin you will automatically get links and traffic when people copy and paste your blog content.

AND even better news, this plugin is so simple to use you can have it installed and working in just 7 seconds!

some important points to consider: -

- ~ The 7 seconds is not a gimmick. When you install and activate the plugin - it works right out of the box!
- ~ The fact that so many people share via email is not generally known, most people are focused on Facebook, Pinterest etc. and miss out on this one!
- ~ We are all missing out on traffic due to cut and paste, this plugin fixes the problem instantly
- ~ The plugin will no interfere with or replace other social media strategies - it simply mops up the 70% that are currently lost to you.
- ~ The plugin is not intended to prevent people from copy and pasting your content, In fact with the plugin installed you want as many people as possible to keep doing so, because you'll now benefit from it...

I've never seen anything that does this, so I'm expecting it to 'fly off the shelves', in other words that DimeSale price is going to start going up very quickly, so the sooner you grab your copy the cheaper it's going to be...

oh, and it's on a dimesale, so check it out quick here:

Anyone who grabs your content will build your traffic...

Hey {!firstname_fix},

visitors think nothing of grabbing your content with a quick right click and then sharing it or using it themselves...

and I really do mean simple, you can have this up and running in under 10 second... :-O

Did you know that up to 70% of all social sharing is done by simply copy and pasting the content to email?

This plugin is not intended to prevent people from copy and pasting your content, In fact with the plugin installed you want as many people as possible to keep doing so, because you'll now benefit from it...

and it WON'T interfere with or replace other social media strategies - it simply mops up the 70% that are currently lost to you.
