2023-11-29 golang-tools session

Details

When: 16:00 UTC ([shared calendar](#)) (We use 16:00 London time, to adjust for DST in US/UK/EU)
Meet: https://meet.google.com/xuq-tcoc-dkp
Wiki: https://github.com/golang/go/wiki/golang-tools
Volunteer running the call: Daniel Martí

Agenda

- **Start recording the session!**
- Meta discussion:
    -
- ide/editor/tools
    - Telemetry update
    - Current/Future work
        i. Refactoring features (inlining and beyond)
        ii. Simpler workspace configuration / better build tag support (and package refactoring)
    - Alias support in go/types
    - mvdan: plans to resurrect UsesCgo in go/types? [issues/39072](#)
        i. Asking on behalf of dominikh, not dealing with mangled names would help with better diagnostics
    - go/types heads up: function scope pos/end will in 1.22 match the FuncDecl/Lit, not body
    - myitcv: (internal) refactoring of golang.org/x/tools and gopls - plans/goals etc!
- cmd/go
    -
- Misc
    - rogpeppe: which line of code covered by which tests?
- Volunteer for running the next session
    - Who: Daniel
    - When: 2024-01-17
