

Candle Lighting - Wedding

For the couple:

- Two small candles are placed on the side of one larger candle.
- The bride and groom each take a small candle that is pre-lit.
- Together, they light the large candle in the middle.
- This symbolises 2 flames becoming one, just as their lives are.

For the families:

- Symbolising two families becoming one
- Mother or father of bride approaches the ceremony space and light the bride's candle
- Mother or father of the groom does the same for his candle
- The couple then performs the ceremony, as above
