

Golden Strip Career Center

Driver and Rider Parent/Guardian Permission Form 2026-2027

Students who believe that they qualify to use a private vehicle to travel from their home high schools to a career center, the Fine Arts Center, or other school-related destination, either as a driver or a passenger, must submit an application for a permit to the principal before traveling on nonschool-district transportation. In applying for a permit, both the student and the student's parent or guardian must agree to abide by the following rules:

1. No student will be allowed to drive or ride in a private vehicle until the student's parent or guardian has submitted to the Director of Golden Strip Career Center written permission for the student to do so.
2. A passenger must submit the name of the driver with whom he proposes to ride. If a student, this driver must also have a permit issued under this Rule.
3. A student driver must have a valid South Carolina driver's license.
4. Students with rider passes will not be allowed to drive.
5. Unsafe driving on school grounds is not permitted. Although the school district assumes no responsibility for patrolling a student's driving off school district property, confirmed reports of unsafe driving will result in cancellation of the permit.
6. Students will park in designated parking spaces at Golden Strip Career Center. Students may not park in the first parking lot closest to the school. All other lots are first come, first served.
7. Students will report directly to class and may not return to their cars until after class dismissal.
8. Students may not make stops or detours when traveling between their home HS and the career centers.
9. Student drivers must show evidence of liability insurance before a permit is issued.
10. Both the student and the student's parents and guardians agree that The School District of Greenville County will not be responsible for any accidents, vandalism, or theft of property that may occur either to the vehicle or the student or passenger(s) during operation of the vehicle.
11. A student permitted to drive or ride must have the permit in his possession whenever traveling and while at the approved destination.
12. Students permitted to use private vehicles in the afternoon should not return to their home high schools at the end of the day without prior permission to do so.
13. Either the student's high school principal or the center director may revoke the permit for use of a private vehicle. Violation of these rules may also result in the imposition of other disciplinary sanctions.
14. Students must have a valid parking pass from their high school before purchasing a parking pass at GSCC.
15. Students who purchase a parking pass from Golden Strip Career Center must display the parking decal on the rear window of the vehicle on the lower left side (driver's side).
