## Profile

Creative and self-driven junior full-stack developer with a keen eye for design, UI, and responsive layouts. I started my journey with Angela Yu's Full-Stack Bootcamp and have since built real-world experience through two professional roles. Passionate about writing clean, scalable code and continuously evolving toward full-stack development. Currently seeking a team-oriented role where I can apply my skills, deepen my PHP and backend skills, and grow as a valuable contributor.

## Technical Skills

Languages & Tools:

HTML, CSS, SASS (BEM), Bootstrap, JavaScript, PHP, SQL, Git, Laravel (basic), Vue.js (basic), AOS.js, Dotdigital, Exclaimer, Sublime Merge, Photoshop, Illustrator

Strengths:

UX/UI design, responsive layouts, eCommerce platform updates, adapting to new systems, collaboration with marketing and design teams

## Professional Experience

### Web Developer – Fastwarm Ltd

Mar 2025 – Jun 2025 | Essex, UK

- Built and maintained pages using Laravel Blade components, applying mobile-first responsive design principles with SASS (BEM).
- Created dynamic, reusable sale banners using Vue.js and Blade, allowing for quick visual updates across the platform.
- Delivered 10 SEO-optimised pages for the Fastwarm Knowledge Hub, covering flooring types for underfloor heating.
- Developed a dedicated Air Source Heat Pump landing page with a custom JavaScript accordion component using Blade templating and SASS.

- Gained experience using Laravel conventions and framework logic to build maintainable, modular components.
- Used SQL and TablePlus to update product data, pricing, and stock logic within the system.
- Designed marketing graphics and updated eCommerce product visuals using Photoshop.
- Contributed to system integrations involving Dotdigital, Exclaimer, and EKM.
- Handled version control and deployments using Git and Sublime Merge.

## Junior Web Developer – Palace Media Ltd / Book a Builder UK

Feb 2024 – Mar 2025 | Essex, UK

- Built responsive tradesmen websites using HTML, CSS, SASS, Bootstrap, JavaScript, and AOS.js for user interaction and animations.
- Used PHP to power dynamic page elements and handle logic such as form processing, user authentication, and data filtering.
- Applied SQL queries for retrieving, displaying, and updating trade-related content across multiple sites.
- Played a key role in maintaining and expanding the Palace Media CRM — using both JavaScript and PHP to enhance core functionality.
- Introduced new PHP modules that streamlined the creation of trade websites, automating templating and improving delivery speed.
- Helped refactor parts of the CRM to make it easier to manage and populate client data during onboarding.
- Created reusable front-end components to ensure design consistency and efficient rollouts.

## Projects

### TradeStore Toolzy eCommerce (Palace Media LTD)

- Built an eCommerce prototype using PHP and SQL, experimenting with cart logic, product filtering, and basic order flow.
- Designed front-end using HTML/CSS and Bootstrap, with a focus on mobile responsiveness and clean UX.

- Though not launched, the project helped strengthen back-end integration skills and is available on GitHub.

## Education & Learning

Angela Yu – Full-Stack Web Developer Online Bootcamp

- Learned full-stack fundamentals: HTML, CSS, JavaScript, Node.js, APIs, Git
- Supplemented with additional self-led courses and hands-on mini-projects

## Continuous Professional Development

I am highly adaptable and thrive in environments where there's always something new to learn. Transitioning into new tech stacks, workflows, or team structures doesn't intimidate me — it motivates me. I'm committed to continuous professional development and expanding my technical skill set, whether that means diving deeper into backend development with PHP and Laravel or quickly picking up new frameworks, languages, or tools that a team relies on. My focus is on becoming a well-rounded full-stack developer who can confidently grow into whatever direction a company needs most. I'm proactive about learning and excited by roles that challenge me to evolve.

## Prior Work History

Specialist Personal Trainer & Rehabilitation Coach – Studio35 (formerly Truedge Fitness) & G Fitness in Essex (2015 – 2024)

- Delivered specialised personal training services focused on mobility rehab, injury prevention, and GP referral cases.
- Worked closely with clients managing lower back pain and chronic injuries, designing tailored programs for recovery and functional strength.
- Head PT at Truedge Fitness, leading a team of trainers and evolving into Studio35.
- Provided group exercise classes in care homes for clients with stroke recovery needs, cerebral palsy, dementia, and elderly mobility training.
- Supported individual clients with strength and conditioning, kickboxing, and weight-loss goals.
- Collaborated with medical professionals to support physical therapy goals and improve long-term outcomes.
