

By connecting your Google and Classlink accounts, users (staff and students) will be able to login to Classlink using Google credentials or network/classlink credentials. This is especially useful if using Google chrome or a chromebook where a user is already logged into a district Google account.

Connecting your Google Account to your Classlink Account

1. Using the Chrome browser on a desktop or chromebook go to launchpad.classlink.com/gbcs or click the GBCS folder in the chrome bookmarks bar and select Classlink
2. Log in using your computer credentials (what you would use to log in to a desktop/laptop computer; *not your email address*)
3. Click the down arrow to the far right then click *Settings*
4. Click the blue *Sign In Options* link from the top
5. Click the blue link in the Google Account area to connect your Google and Classlink accounts then follow the steps to pick an account and finalize
 - a. You *must* use your Grand Blanc email account otherwise it will not work correctly
 - b. You may need to complete Google 2FA to finalize the process

Grand Blanc Community SD

SETTINGS SIGN OUT

Once your Google account is connected, you can sign into Classlink from any browser already signed into Google (Chrome, a chromebook etc...) just by clicking the Sign in with Google button...no username or password will be needed.
