

Outline of The Proposal of Internship Program In SEAQiM

1. Background

This section is an introduction that outlines in brief the internship programs that the applicant wants to propose, including why this program is important for the applicant, and etc.

2. Goals of the Internship Program

Describe the specific goals that you want to achieve by completing the internship programs in SEAQiM.

3. Details of the Internships Activities Plan

Mention and describe the details of the proposed activities that the applicant wants to do during the internship program. It gives the SEAQiM' team a draft for the direction that your proposed activities are well-designed and achievable in the time available.

4. The Internships Activities Plan and Timetable

The time table is approximate only, and things can be changed regarding the situation and conditions.

5. Mode of the proposed Internship Program

The applicant can elaborate the mode of the proposed activities during the program. It can be fully in person, online or the combination of online and offline.
