

Miss Aya Khema, official emissary to the House Kor-Azor, House of Imperial Chancellor and Heir Aritcio Kor-Azor,

I humbly respond to the invitation of the House Kor-Azor to fight for the ascension of the Chancellor to the position of Emperor, and hereby declare my bid for the position of Champion in the upcoming Succession Trials.

I recognize that, as an ethnically Gallentean capsuleer, I would be seen as a non-choice by many; as such, in gratitude, I welcome the House Kor-Azor's position on this otherwise controversial possibility. I am currently held in excellent regard by the House, at a CONCORD-recognized 10.00 unmodified standings score; and as countless others do, I pray deeply for the appointment of the righteous heir Aritcio Kor-Azor to the position of Emperor.

In the past, my actions have generally laid apart from the affairs of the Empires. However, that is not to say I have paid them no interest; rather, I have always taken initiative to learn all I have been able to of New Eden's' politics and the state of the cluster. In that vein, I have long upheld the policies and leadership of Chancellor Kor-Azor as a fair, stable, effective and purely good form of government for the Amarr Empire. It is my belief that Chancellor Kor-Azor is by far the best candidate and the most worthy of the heirs to be made the next Emperor. In these unsure times, the Amarr Empire, now more than ever, is in need of an luminary who will both uphold and bolster the unity and integrity of the Empire, and sustain and cultivate relations with the other factions of the cluster in order to further empower Amarr and its people. Chancellor Aritcio Kor-Azor is the choice candidate for the Emperorship in the spirit of unifying and focusing the morale of the Amarr Empire and expanding its strength and influence through the growth of interfactional relations.

For as long as I have been a capsuleer, I have held a deep respect for the late Empress, openly voicing my positive feelings toward her policies and decrees and, more recently, appearing at all possible events where she was to be in attendance, up to her final appearance at Safizon and her tragic demise at the hands of Vigilant Tyrannos forces. Over all others, Aritcio Kor-Azor is the rightful choice for the next Emperor. I will support his bid for the throne in any way possible; and I would consider it the utmost honor to represent the House in the trials.
