### **Doc's unofficial guide to weapons-grade Matik co. products:**

Gain 1 Overclock point after winning a battle, or 1 point per extra turn waiting to deploy.

Plus Mode: Can use 1 Overclock point to add +1 to Reflex, MHP/8 Temp HP, 300 Normal def.

X MODE: Expends a full meter, adds +1 all stats, MHP/4 Temp HP, 300 to all defenses.

But it requires 2 turns or an auto-respawn to deploy Plus or X modes! Note that these upgrades wear off after the end of a chapter.
