Immigration Judge

Re: Letter of Support for Jorge Cruz

Dear Honorable Judge,

I am writing in support of Jorge Cruz, who is currently detained and facing deportation proceedings. I respectfully ask you to consider his strong ties to our community, his contributions, and the hardship that removal would cause to his family, friends, and community.

I have known Jorge Cruz for years in my capacity as an arts professional. During this time, I have witnessed him demonstrate qualities of kindness, responsibility, and integrity. He has always been committed to supporting his family and to contributing positively to the arts community. For example, he has catered and provided fruta, elotes, hot dogs, and aqua frescas for the past couple of years to events such as Frieze LA, World Refugee Day at Grand Park LA, The Hammer Museum concert series with KCRW, Inner City Arts gala event, UCLA's First Thursday, and Snapchat Summit. These actions show not only Jorge Cruz's dedication to being a productive member of society but also the respect he has earned from those around him.

I believe that his detention and potential deportation would cause severe hardship, not only to him but also to the many people who depend on his presence, care, and support. He has built a life here, and removal would tear apart the family and community bonds that are so essential for well-being.

I respectfully urge you to grant Jorge Cruz relief from removal and allow him to remain in the United States, where he can continue to contribute and thrive. Thank you for considering this letter of support. Please know that Jorge Cruz has the full backing of community members like myself, who believe in his value and potential.

Sincerely,

[YOUR NAME]
