## Production Animal Science

### UNIT: Dairy Cattle- Reproduction & Feeding

#### WEEK 7:

#### Learning Targets

This week we will learn...

1.

How do you select a sire or dam for breeding?
2.

What steps are involved in breeding dairy cattle? How do you select superior animals?

I can...

- What are the different types of dairy cattle production and how are the facilities different?
- What are appropriate feeds for feeding dairy cattle?
- What is a Total Mixed Ration?

#### Learn About It!

*You can explore some, or all of these resources. If you want to see a resource again, go for it!*

Cow Reproductive System

Bull Reproductive System

TMR Discussion

#### Evidence of Learning

These items will be graded.
