Personal Information:

Name: Johnny [REDACTED]

Codename: Cosmic

SCP Designation : [REDACTED]

Date of employment: 18/09/██

Date of transfer to Site 65: 15/05/██

ADDITIONAL INFORMATION:

INCIDENT REPORT A-4.

On the 04/06/██ a system wide failure occurred which caused a mass breach of SCPs contained at the facility. "Cosmic" was somehow able to evacuate the facility and also contain SCP-106 with ease. His evacuation of the facility shows possibly anonymous skills or capabilities.

The reasoning behind this is, it seems like he had multiple attempts at this. In short what this means is, "Cosmic" could possibly revert time or when they die they can try life again. This is thought because skills that would take years to acquire were somehow able to be performed by a researcher. Complex containment methods were done with ease and perfection like never seen before.

Further testing is needed to identify this however.

Information regarding Johnny [REDACTED] experiences before Foundation:

Before Johnny was recruited to join the foundation, he worked in the administration division of a government base located in Texas. Using these skills he was recruited to the foundation to assist in the running of sites that need it.

Johnny grew up in West Texas in a standard household and attended a public school, however it was noted from a very young age about his particular abnormal skills and how proficient he was at tasks which shouldn't be possible for someone that age.

When school was completed, he was immediately placed into a training facility to further train him to be more efficient at what the foundation would need.

Cosmic time within the Foundation:

Within Cosmic's time in the foundation he has been a member of both sides of ISD with his origins beginning in MTF Nu7. Since this he has also gained knowledge in the Research and Security departments. Cosmic has shown undying loyalty towards the Foundation regardless of the odds placed against him.
