

Hi Folks, Happy Labor Day! My crew has been laboring away to put together another nice share for you. We have some of the best corn of the year, so far- a super-sweet variety, aptly named Nirvana. Ripe, colored peppers are now abundant, and the eggplant is finally producing a decent crop. We are able to continue harvesting tomatoes from our greenhouses, as the field planting has succumbed to blight. No brassicas this week, but we expect to have broccoli and kale back in the rotation soon. We still owe some of you cauliflower, but no worries- we know who you are (and where you live lol). More greens are on their way too. The share will be- lettuce, beans, cukes, beets, red onions, colored peppers, fingerling potatoes, delicata squash, eggplant, sweet corn, tomatoes, and choice of herb Basil, cilantro, dill). Premium shares will also include Swiss chard. There will be hot peppers as an extra.

Enjoy! Farmer John
