Newsletter February 10, 2025

First, we would like to thank all that attended the annual meeting. We apologize, we started the meeting 15 minutes prior to the start time on the notices. Had it come to our attention, we would have repeated the portion that you missed. Again, our sincere apologies.

At the meeting I mentioned that I would be attending a meeting with city representatives, Pulte, Barron Collier and a few others to discuss the lake situation.

According to the information I received, lake 8 will be dewatered again to do some repairs to the banks and I was assured that after all the maintenance was complete quote "it will look like a beautiful golf course lake". The temporary road on Carnoustie will not be torn up until the work on the lake is complete.

The roundabout phase 1 will be opening quite soon, when that happens the temporary road will be torn up. Phase 2 will be the connection of Maddox to Paradise. I don't have a date for phase 2.

The city has selected a contractor for the Paradise Rd improvements and I was informed that public input would be sometime in the fall. The project is not slated to be completed for 2-3 years as they are going to wait until construction is complete. We will keep you updated as to when there will be public input. I was told it was a 13-million-dollar project. There will be curbs, gutters and sidewalks and/or multi use paths. No right hand turn at the corner of Paradise and Shangri La.

The yard sale will be on March 1, 2025 from 8am -2pm. Please be aware the city does not want parking on the street. They may monitor our neighborhood.

If you have not filled out and returned your information sheet, please do so. Also, thanks to everyone who has paid their dues and if you haven't please support your Civic Association.

Thank you for your support.
