These questions are aimed at making sure you realize the extra responsibilities that come with adopting a dog, to help you determine what type of dog you are looking for, and to assist us in finding the right dog for you. For example, if the dog you are seeking is to be a 24-hour inside dog then an outside active dog would not be appropriate.

Please ensure you include all relevant information in this application. Only information which is provided in this application will be considered in assessing suitability of your chosen dog(s). Please understand that popular dogs may receive more than 20 applications, and we only telephone at the most three applicants. We must make our decision on whom to contact from the information you give us. If you are not one of those called, this does not mean you are not a good applicant, but based on the information you gave us you do not seem the best match for this particular dog. If you are not naturally a wordy person, we appreciate it can be difficult, but please try. This application can then be used for any other of our dogs on the same basis.

ADOPTION FEE:

This Fee is established depending on the size of the dog adopted and the Airline fee out of Mexico. It runs between $300.00 USD and $600.00 USD.
Included are all the tests, vaccines, spay/neuter and other interventions the dog might have to travel safely, and transportation costs to the final destination.
Please keep in mind that this covers only PART of our expenses!

We request that you follow us on Facebook, Twitter, YouTube, Instagram and TikTok (if possible). We like to follow the progress of the pups that we place. We are not a “regular” rescue organization. We strive to make sure to place our dogs (or cats) in the best possible homes. We require regular updates, at least until we know for sure that our animal is in the best possible place, is being treated well, is loved, cared for and safe. Updates include photos and videos, which we may use for promotional purposes. Thank you!

Health Disclaimer: We do not guarantee the health of any animals offered for adoption. Any time you adopt an animal, you should take it to a licensed veterinarian as soon as possible. Your animal is, to the best of our knowledge, healthy. Please be aware that the animals available for adoption are rescue animals and, as such, sometimes have unknown histories including exposure to certain illnesses. Like human illnesses, these diseases can have an incubation period of up to several weeks. All of our dogs have been seen by a vet and checked for common diseases and illnesses, however that does not guarantee that an illness/disease may present in the future. If the animal you adopt shows signs of illness at any point, you must take it promptly to your veterinarian for treatment at your expense:
