

These are the kind of rubrics that will be used to assess your assignment.

	Ideas (K - 7)	Connections (A - 7)	Extensions (TC - 6)
Solution	Solution provided calculates an answer.	Solution provided is complete and computational work done <u>effectively</u> .	Solution provided is elegant/inventive in nature. Attention to detail is evident.
Justification	Provides conventional narrative to demonstrate understanding of derivative concepts. Includes validation of data or information from functions.	Uses proper and clear narratives to connect the derivative concepts to slopes of tangents in context. Links validation and connects information between the solution and derivatives.	Validates his/her thinking by relating various portions of the assessment to one another through <u>rigorous</u> examination of data assembled.
Reasoning	Assembles evidence relevant to question.	Evidence is linked directly to claims in solution.	Claims are <u>thoroughly</u> defended through proper narrative and reasoning.
