Pendahuluan / Introduction

Pendahuluan tanpa sub judul yang memuat latar belakang, hipotesis (jika ada), tujuan penelitian. Komposisi pendahuluan (10% sampai dengan 15%) dari total halaman artikel.

Explain the background, problems, and importance, provide a brief literature review that relates directly to research or previous findings that need to be developed, and end with a paragraph of research purposes. A balance must be kept between the pure and applied aspects of the subject. The introduction is presented in the form of paragraphs of approximately 1000 words.

Kajian Literatur (jika ada) / Literature Review (if applicable)

Metode / Methods

Metode penelitian dengan komposisi 8% sampai dengan 10 % dari total halaman artikel.

Make sure that the work can be repeated according to the details provided. It contains technical information about the study presented clearly. Therefore, readers can conduct research based on the techniques presented. Materials and equipment specifications are necessary. Approaches or procedures of study, together with data analysis methods, must be presented.

Hasil dan Pembahasan / Results and Discussion

Hasil dan pembahasan dengan komposisi 50% sampai dengan 60% dari total halaman artikel.

Well-prepared tables and figures must be a significant feature of this section because they convey the major observations to readers. Any information provided in tables and figures should no longer be repeated in the text, but the text should focus on the importance of the study's principal findings. In general, journal papers will contain three to seven figures and tables. The same data can not be presented as tables and figures. The results of the study are discussed to address the problem formulated, as well as the objectives and research hypotheses. It is highly suggested that the discussion focus on why and how the research findings can happen and the extent to which the findings can be applied to other relevant problems.

Simpulan dan Implikasi / Conclusion and Implications

Simpulan dengan komposisi 5% sampai dengan 10% dari total halaman artikel.

Conclusion should be withdrawn based on research findings, formulated concerns, and research purposes. The conclusion is presented in one paragraph without a numerical form of expression. Explain your research contributions to science.
