Overview

As of now The Department of External Affairs have not taken advantage of the new demilitarised zone (DMZ) in any major way. Yes we have been able survey pinewood with relative ease, we haven't made any strides towards reducing the influence that The Chaos Insurgency (under the guise of The Pinewood Defence Force) currently holds on the populace of Pinewood.

This Operations goal is simple, with assistance of the DMZ we will wage a misinformation campaign on The Chaos Insurgency to help reduce the influence they have gained over the civilian populace and the local government.

We will be creating false documentation, photos and videos of CI operatives committing atrocities. An example of this may be falsifying a photo of them executing innocent civilians. We will then either advertise these over open communications or for documents put them on cork boards in buildings such as PD and Hill House.

The end goal will be to make the populations and local government turn against The Chaos Insurgency, this could have many benefits for us in the long term. With worsened relations between the local government and The Chaos Insurgency and hopefully ever strengthening relations with us we can make agreements with certain individuals within the government to start calling movements of these terrorists. This will allow us to gain much better intelligence of The Chaos Insurgency within the pinewood region as a whole.

Summarised Objectives

- Fabricate Video / Photographs of Chaos Insurgency Operatives committing atrocities.
- Place documentation on public cork boards or within the offices of the local government
- Spread anti Chaos Insurgency Propaganda on Open Communications
- Set up Canadian Military Booths within the DMZ to strengthen relations with the population of pinewood

When accomplishing these tasks ensure that you refer to The Chaos Insurgency as The PDF (Pinewood Defence Force) for obvious reasons, failure to do so will result in punishment

Signed

Dpt. Director Dennid
