

Timeline of Personal Accomplishments

Maleah Bliss Caulford

Candidate for Utah State Senate, District 11

My personal and professional journey is one of resilience, entrepreneurship, and a deep commitment to building community. After moving to Utah in 2006, I dedicated my early years here to my family before launching a career focused on empowering others, solving problems, and fostering connection within our local business ecosystem.

1. Dedication to Family & Professional Transition

- 2006: Moved to Utah
I planted my roots in Utah after marrying my children's father, settling in our community. Worked for a real estate agent as an executive assistant and then for the Weber County School District as a Substitute Teacher.
- 2010 - ~2016: Dedicated Stay-at-Home Mother
For the first six years of my children's lives, my primary focus was on raising my family, managing our household, and instilling values of responsibility and community.
- ~2014 - 2019: Life Coach
Following my separation, I transitioned into a professional career as a life coach. In this role, I empowered clients to navigate their own life changes, establish clear goals, and build paths toward personal and professional success.
- 2017 - Present: Building a New Family
I met my husband, a Canadian national, in 2017. For the past eight years, we have navigated the complex legal immigration process together, giving me a deep, firsthand understanding of the bureaucratic and personal challenges many families in our state face. He currently holds a TN-1 Visa, but just recently filed the paperwork to begin the Green Card process.

2. Entrepreneurship & Business Leadership

- 2022: Founder, Salt City Payments
I identified a need for more transparent, relationship-focused merchant processing for local businesses. I founded Salt City Payments building a company dedicated to helping other Utah entrepreneurs save money and grow.
- 2022 - Present: Active Business Community Leader
Launching my company immersed me in the local business community, where I became an active leader and connector, focused on building a stronger, more collaborative local economy.
- 2023: BNI Givers Gain Award Finalist
In my very first year of participation with BNI (Business Network International), I was

honored as a finalist for the Givers Gain Award for the Utah South Region. This award recognized my deep commitment to helping other business owners succeed, embodying the philosophy of "what goes around, comes around."

3. Innovation & Community Building

- 2024: Co-Founder, Networkr Mastermind
I partnered with Brandon Knutson to create Networkr Mastermind, a mastermind designed to create real connection in the business community.
- 2024: Produced ~100 Community Events
In a single year, our team successfully planned, promoted, and executed close to 100 networking and mastermind events across the state. This accomplishment demonstrates my ability to manage complex logistics, build a community from scratch, and deliver consistent results.
- 2025 (Current): Co-Founder, The Networkr App
My current role involves pivoting our successful events model into a scalable technology platform. As co-founder of the Networkr app, I am helping to lead the development of a tool that will help professionals connect more effectively, adapting our community-building vision for a larger audience.
