

**2025 Nordiq Canada Selections Trials and OCUP#2**  
**January 2 to 6, 2025**  
**Lappe Ski Centre**

---

## Parking

**Carpool:** Parking on site at Lappe is very limited so **Share A Ride**. Plan ahead for getting on-site. Whether you are racing, coaching, volunteering or cheering, coordinate your carpool to make parking easier for all.

Please ensure that all parking-volunteer directions and signs are adhered to so that safety and efficiency is maintained.

**Reserved Parking** There will be some 'reserved' parking for media, sponsors, and those with accessible parking passes as well.

Please do NOT park on the road unless directed to by one of the designated parking volunteers.

## Trailers

**Locks:** Each trailer has two doors with the same lock. One key can be signed out from the race office to a coach within the trailer. Teams within a trailer can decide amongst themselves who that key holder will be (consideration could be given towards who might arrive earliest). Backup keys will be kept in the race office. All keys must be returned on or before the 6th to the race office.

**Garbage cans** are in each trailer. Please keep your area clean and garbage contained. There are brooms and dust-pans also available to clean up wax shavings. Each garbage can will have extra bags and can be emptied when they are full into the large GFL bin close to the stadium. Trailers should be left in the state they were when you arrived.

**Electricity.** Please don't overload an electrical outlet.

**Fire extinguishers** are in each trailer in case of emergency.

Several **shovels** are on hand around the trailers. Please feel free to shovel out your trailer stairs if it snows. Volunteers will also support shoveling as best possible.

**Slip hazard.** Floors inside trailers can be slippery. Also, outdoor icy conditions form on thaw/freeze may be present on site. Be cautious.
