Technical Details:

Features:

- 101 Custom Blueprint Brushes (Texture resolution ranging from 1024x1024 to 4096x4096, 16bit depth)
- Create your own Blueprint Brushes with custom alpha textures
- Brushes for the default Sculpting Tool included

Technical Limitations:

- Landmass Plugin needs to be enabled
- Landscape has to be square
- Not compatible with regular Landscape Sculpting Tools
- Performance while editing the landscape at resolutions of 4096x4096 or higher can be quite bad, depending on your hardware
- The Alpha Brushes for the default Sculpting Tool are limited to 8 bit depth, which produces stepping artifacts at higher landscape resolutions
- Size 1.8GB
