Photo Prompt: Romantic Half-Year Anniversary Wedding Collage ❤️

Create a premium, ultra-realistic vertical 4:5 romantic wedding anniversary collage using the uploaded photo as the visual reference. Preserve the couple's original facial identity, face shape, eyes, eyebrows, nose, lips, skin tone, natural skin texture, hairstyles, and body proportions accurately. Do not change, replace, beautify, or recreate their faces.

Main Center Portrait:
Show the couple standing close together in their traditional wedding outfits. The man wears an elegant ivory silk kurta and traditional white dhoti with a gold border, holding a beautiful red rose wedding garland. The woman wears a luxurious deep magenta-pink silk saree with intricate gold embroidery, traditional gold jewelry, a forehead ornament, earrings, bangles, and flowers in her hair. She gently rests her head against his shoulder while they share a warm, natural smile. Both hold long red rose garlands.

Surrounding Photo Collage:
Arrange four romantic wedding photographs around the central full-color portrait:
- Top left: the woman smiling with her eyes closed while the man affectionately leans toward her.
- Top right: the couple touching foreheads and smiling lovingly at each other.
- Middle right: a cheerful close-up portrait of them smiling together.
- Bottom left: a candid moment of the couple looking at each other affectionately.

Render the surrounding photographs in elegant black-and-white, with realistic torn-paper edges and soft vintage film grain. Keep the central couple in vibrant, natural colors.

Background and Design:
Use an off-white textured handmade paper background with ripped collage layers, subtle gray shadows, rough paper edges, and a minimalist scrapbook aesthetic. Add a small hand-drawn heart illustration and repeated black typography reading "I LOVE YOU" on a torn-paper strip.

Exact Main Text:
"HALF A YEAR OF LOVE ❤️"

Display the text diagonally across the middle-left area in bold, uppercase, vivid red lettering with a slightly distressed print texture. Keep the words clear, correctly spelled, and easy to read.

Lighting and Quality:
Soft natural wedding photography lighting, realistic skin tones, detailed silk fabric, intricate jewelry, lifelike red roses, sharp facial details, balanced contrast, subtle film grain, professional DSLR photography, premium editorial composition, 4K quality.

Aspect Ratio: Vertical 4:5 portrait poster.

Negative Prompt: Blurry faces, altered identities, duplicated people, distorted hands, extra fingers, unnatural anatomy, plastic skin, excessive retouching, oversaturated colors,

messy collage, unreadable text, misspelled words, watermark, unwanted logos, low resolution.
