

Clove Bud Essential Oil

Clove Bud Organic Essential Oil is steam distilled from the dried flower buds of the *Syzygium aromaticum* L. tree grown in Sri Lanka. Revered for centuries, cloves were once considered a valuable commodity, driving global trade, and even causing conflict. The oil, with its warm, spicy, and invigorating aroma, has a long history of use in traditional wellness practices, including skin and oral care. Today, it is a popular ingredient in personal care and aromatherapy formulations, offering a natural way to incorporate the distinctive fragrance and properties of clove into a variety of wellness applications. Whether used in skincare products, hair treatments, or diffused to refresh living spaces, this versatile oil brings a rich, comforting scent and a touch of the exotic to everyday routines.

Botanical Name: *Syzygium aromaticum* L.

Plant Part: Buds

Main Constituents: Eugenol

Origin: Sri Lanka

Processing Method: Steam Distillation

Color/Consistency: Clove Bud Organic Essential Oil is a pale yellow to yellow clear liquid.

Aromatic Summary / Note / Strength of Aroma: The oil's strong, spicy aroma is a powerful middle note, characterized by its warm, slightly woody scent that evokes the rich history of clove spice.

Blends Well With: Cinnamon, Nutmeg, Ginger, Citronella, Peppermint, Rosemary, and citrus oils like Lemon, Grapefruit, and Orange Essential Oils.

BENEFITS

Certified Organic: Our Clove Bud Organic Essential Oil is USDA-certified organic, ensuring it is cultivated without the use of synthetic pesticides or fertilizers.

Rich, Spicy Aroma: Extracted from the dried flower buds of the *Syzygium aromaticum L.* tree, Clove Bud Essential Oil has a robust, warm, and spicy fragrance that adds depth to personal care products.

Skin Care Support: When diluted appropriately, Organic Clove Bud Oil can be added to skincare formulations to help cleanse and invigorate the appearance of the skin.

Aromatherapy Benefits: The warming and stimulating scent of Clove Bud is known to enhance focus and manage feelings of anxious energy. It can be diffused to create an atmosphere ideal for meditation or concentration.

Versatile Perfumery Note: In perfumery, Clove Bud Essential Oil is a middle note that imparts a unique earthy and dynamic character to fragrances. It blends exceptionally well with spicy, herbaceous, and citrus oils, and can even mimic a carnation note when combined with Vanilla.

DIRECTIONS AND USES

- Skincare Formulation: Incorporate Clove Bud Organic Essential Oil into skin care products like creams, lotions, and cleansers at a concentration of 0.5-1% to enhance the product's cleansing and revitalizing properties.
- Hair Care Enhancement: Add 0.5-1% of Clove Bud Organic Essential Oil to shampoos, conditioners, or scalp treatments to promote a stimulating experience for the scalp and help maintain a refreshed look. This oil pairs well with other stimulating ingredients like Peppermint or Rosemary Essential Oils.
- Aromatherapy Blends: Combine Organic Clove Bud Oil with complementary oils such as Cinnamon Bark, Ginger, or Sweet Orange for diffuser blends or personal inhalers. Use at a dilution of up to 5% for diffusion in wellness products designed to support focus and elevate mood.
- Perfumery Applications: Use Clove Bud Organic Essential Oil as a warm, spicy, and slightly woody character in perfumes and colognes. For a unique floral note, blend with Vanilla to mimic the scent of Carnation Absolute, which is highly valued in commercial perfumery.
