## SUMMARY

With over 23 years of diverse experience as an entrepreneur and Product/Project Manager, I specialize in delivering comprehensive IT-enabled solutions using Adaptive, Predictive, and Hybrid methodologies. I have successfully overseen ETL projects, leveraging my proficiency in leading cross-functional teams and implementing efficient ETL solutions. In the mobile, web, and IoT industries, I have transformed concepts into reality by developing robust software solutions, including Native and Hybrid/Cross Platform Mobile applications. Additionally, I excel in mentoring, planning, and client interfacing across various industries and have a proven track record in IV&V project management adhering to IEEE standards.

## Work Experience

### **Franchise Tax Board—CA    Feb-2021- Present    Solution Architect/Tech Project Manager**

- Successfully executing EDR projects, adhering to CA's Project Life Cycle Approval (PAL) process, which involves Business Analysis, Alternatives Analysis, Solution Development, and Project Readiness & Approval stages
