Math Launch (MATX 0101) - Spring 2027

What is Math Launch?

It is a short course offered through ACC's Continuing Education department, staffed by ACC math instructors. Math Launch is a low cost opportunity for students to review and refresh previously learned math topics, and to reassess with the chance of improving their initial developmental math placement. By reviewing key skills before reassessing, students *may* be able to improve their developmental math placement by 1 or 2 levels!

How do you register for a Math Launch class?

http://continue.austincc.edu/register/
(Course Prefix **MATX** and Course Number **0101**)

Who should take Math Launch?

Students who have placed lower than they wanted with the TSI. Students with a TSI score less than 336, 936, or a diagnostic score below 3. Students who haven't taken a math course in several years will also find this a good way to review old skills before enrolling in developmental math at ACC.
This course can NOT be repeated.

Where can you get more information on Math Launch?
