

Solbeen – Whitepaper (v1.0)

A Meme Coin on Solana With a Mr. Bean Twist

1. Executive Summary

Solbeen is a meme coin on Solana inspired by the legendary Mr. Bean, reimagined as a crypto degenerate. The project will officially launch on Raydium on August 28, 2025, with a strong focus on community, meme culture, and long-term fun-driven growth.

2. The Problem & The Meme-Solution

Too many meme coins are lazy copies with no flavor. Communities are soulless and filled with bots.

Solbeen brings humor and identity through a beloved global character and builds a degenerate community through memes, NFTs, and chaos.

3. Tokenomics

6. Disclaimer

Solbeen is not just a meme — it's a movement.

While \$SOLB is designed for fun, community, and meme culture, we believe in the power of degens coming together to build something iconic on Solana.

This is not financial advice. \$SOLB is not a security or investment vehicle. It's a community-driven experiment in chaos, comedy, and crypto creativity.

Join the ride, spread the memes, and let's make history together — one degen step at a time.

DYOR. Stay based. Stay Beanie.
