

## Quick Advocacy Links: Opportunities with Single Actions or More

Interest	Actions	Resources
<b>Civic Engagement</b>	Sign petitions, meet locals engaged in climate advocacy from different sectors, engage policymakers, use your trusted voice as a healthcare professional to protect people and communities.	<a href="#">Citizens Climate Lobby – Nonpartisan Climate Activism</a>
		<a href="#">RepublicEn – Conservative Climate Activism</a>
		<a href="#">Physicians for Social Responsibility</a>
		<a href="#">Interfaith Power &amp; Light</a>
		<a href="#">Climate Reality Project</a>
<b>Patient Education</b>	Talk to patients about how they can protect themselves against heat waves and air pollution.	<a href="#">Climate Change and Your Health (American College of Physicians)</a>
		<a href="#">How To Survive a Heatwave (Climate Psychiatry Alliance)</a>
		<a href="#">Miscellaneous Patient Resources (Medical Society Consortium on Climate &amp; Health (MSCCH))</a>
<b>Medical Education</b>	Integrate climate & neurology content into curriculum of students, residents, fellows; assess school sustainability efforts; or offer to create new climate and brain health modules in your area of expertise.	<a href="#">Climate Resources for Health Education plug and play modules</a>
		<a href="#">Global Consortium on Climate &amp; Health Education (free office hours on implementing climate change in med ed)</a>
		<a href="#">Planetary Health Report Card for Medical Schools</a>
<b>Research</b>	The Neuroscience Climate Working Group (NCWG) meets monthly to support and connect neuroscience climate researchers.	<a href="#">Neuro Climate Working Group</a>
<b>Health System Leadership</b>	Advocate system-wide emission reductions; raise awareness of health care's carbon footprint. Join a network of +1500 member hospitals in reducing hospital emissions.	<a href="#">Practice Green Health</a>
<b>Medical Societies</b>	Encourage your medical society to take a stance on climate, educate members, and advocate fossil fuel transition. MSCCH can give advice on starting a working group or position statement in your medical society or state neurological society.	<a href="#">Medical Society Consortium on Climate &amp; Health (MSCCH)</a>
<b>State Level Advocacy</b>	The MSCCH has 29 state chapters. You can work with existing chapters, create a new state chapter, or find state-level advocacy resources.	<a href="#">Medical Society Consortium on Climate &amp; Health (MSCCH) State Affiliates</a>
