BIO

Ookay, whose real name is Abraham Laguna, is an American electronic music artist and DJ who has been active in the music scene since 2014. Born on January 10th, 1992, in Chula Vista, California, he started his music career by producing and releasing tracks on SoundCloud.

In 2016, Ookay gained recognition for his track "Thief". The track became an instant hit and received widespread support from other artists in the EDM scene. This success

propelled Ookay into the spotlight, and he went on to perform at major festivals such as Coachella, Electric Zoo, and Tomorrowland.

Over the next few years, Ookay continued to release successful tracks and EPs. He also collaborated with other artists such as Flux Pavilion, Getter, and Marshmello, further expanding his reach and fan base.

In 2017, Ookay released his debut album, "Wow! Cool Album!," which featured a diverse range of sounds and showcased his versatility as an artist. The album received critical acclaim and cemented Ookay's position as a rising star in the electronic music scene.

In 2018, Ookay released the single "Lighthouse," which marked a new direction for his sound, incorporating elements of pop and hip-hop into his music. The track was a huge success, and Ookay continued to experiment with this new live sound in subsequent releases.

In 2022, Ookay released his second album, "Very Special!", which featured collaborations with a variety of artists, including Flux Pavilion, Elohim, and Rachel Lorin. The album showcased Ookay's growth as an artist and his ability to create music that is both energetic and emotional. Ookay released several successful singles, including "Weekends" "Give U Up" and "Be OK" which further solidified his position as a leading artist in the electronic music scene.

Throughout his career, Ookay has maintained a strong online presence, regularly interacting with fans on social media and streaming platforms. He has also been an advocate for mental health awareness and has spoken openly about his struggles with anxiety and depression.

As of 2024, Ookay continues to tour and perform at festivals around the world, while also working on new music and collaborations with other artists, making an impact on the electronic music scene for years to come.
