

Oak Hill Families:

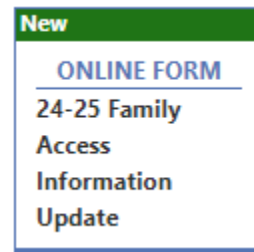

We are excited to announce that our new Skyward platform is now available for families to access! Within this email, you will find lots of important information regarding your Skyward account. Please save this email for future reference.

Soon, our website will be updated with the new Skyward link, but in the meantime, you will be able to access Skyward using the link at the end of the email. You can still access your student's information using the Skyward mobile app on your device, as well.

- **All Skyward Family and Student Access logins will remain the same!** Each guardian listed for a student has their own login. You will continue to use the same username and password that you used this summer to register your student. If you do not remember your login, please navigate to the Skyward login page, then click "Forgot your Username or Password?" link under the green "Sign In" button.

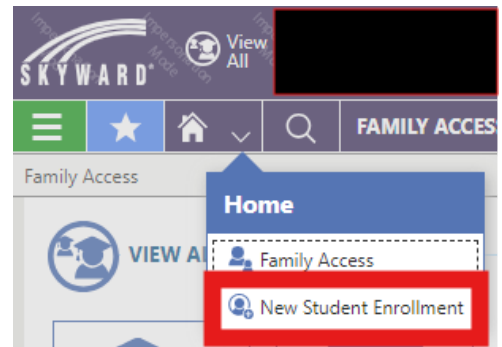

- Your student may login to their Skyward account now, as well, using the Sign in with Google SSO button.
- When you first log in to Skyward, you will see tiles across the home screen. At the very top, you can choose to view all students or an individual student. You will see those same options listed with the tiles. You can also opt to click the menu button (three line icon) on the upper left to expand the menu options.
- If you need to update your family information at any time during the school year, please complete the 24-25 Family Access Information Update form. *This is a change from information change requests in the past.* You will submit your information, and once the school staff has reviewed it, they will be able to approve the request and update your information in the system.

- Student schedules are now available. To see your student's schedule/teacher, navigate to the Scheduling button on the home screen to see your student's current schedule.
- If you need to submit a Food Service Application for free and reduced price meals for 24-25 school year, you can access the application by clicking the "Food Service Application" button found on the Family Access home screen to begin.

- To enroll a **NEW** student to Oak Hill, sign into your existing Skyward Family Access, click the arrow next to the Home button, then click **New Student Enrollment**. You will see a tile appear on the home screen that says “24-25 New Student,” and that will allow you to access the NSE (New Student Enrollment). *Only complete this form if your student is new to the district this year, meaning the student was not attending Oak Hill at the end of 23-24 school year.*

- If you missed the July 9 deadline to register your returning student, please be sure to contact your child’s school to let them know your intentions for enrollment for the 24-25 school year. *There is no returning student registration available in the new system until 25-26 registration season.*
- Lastly, in order to continue to use the Skyward app, please delete the app and log back in. This will refresh your Skyward app connection and allow you to access the new system.

Hope you found this information helpful as you get started in the new system!
