Warranty: We guarantee that all items we offer are fully satisfactory. We are not liable for loss or damage beyond our control. Claims of defects must be presented to Serendipity Trees within 10 days of receipt of your order. Failure to assert your claim within 10 days of receipt of order renders this warranty null and void.

Planting:

All our stock is bare rooted. Do not allow the root to dry out at all! There is only enough moisture in the packaging to keep your order healthy for a few days after you receive it.

- For immediate planting: remove packaging, keep the roots moist until planted.
- If you can't plant right away: Cover the roots with damp sawdust, or lay the stock on its side and cover the roots completely with soil. Keep the soil moist and your stock can be stored safely for 1-2 weeks.
- Dig hole twice as large as the roots. Loosen up the soil on the sides and bottom of the hole.
- For all trees add ½ cup of 10-10-10, or a heaping shovel of composted manure. Trees should be spaced at least 10 feet apart.
- Always water thoroughly after planting. Your stock should receive at least 1 inch of water per week for the first year.
