

Module Description: Fundamental of Nursing

Module designation	Course Module
Semester(s) in which the module is taught	VIII
Person responsible for the module	Andi Fajrin Permana, S.Kep., Ns., M.Sc Dr. Takdir Tahir, S.Kep., Ns., M.Kes Dr. Yuliana Syam, S.Kep., Ns., M.Kes Dr. Rosyidah Arafat, S.Kep., Ns., M.Kep., Sp.KMB Abdul Majid, S.Kep., Ns., M.Kep., Sp.KMB Indra Gaffar, S.Kep.,Ns.,M.Kep Framita Rahman, S.Kep., Ns., M.Sc Nurlaila Fitrianti, S.Kep., Ns., M.Kep., Sp.Kep.J
Language	Mixed, Indonesian and English
Relation to Curriculum	This course is a compulsory course and offered in the 8 th semester.
Teaching Methods	Teaching methods used in this course are: - Bed side teaching - Pre-post conference - Reflective study - Nursing Round - One-Minute Preceptorship (OMP) - Case Based Discussion The class size for lecture is approximately 100 students, therefore there are 7-11 students for each lecturer Clinical fieldwork is 93,33 hours.
Workload (incl. contact hours, self-study hours)	For this course, students are required to meet a minimum of 93,33 hours for clinical fieldwork.
Credit points	2 credit points (equivalent with 3,73 ECTS)
Requirements according to the examination regulations	Students must have graduated with Bachelor Science in Nursing (BSN)
Module objectives/intended learning outcomes	After completing the Fundamental of Nursing Practice, students will be: Attitude CLO1: Applying the principles of caring, universal precaution, and therapeutic communication (A1) Competence (C1) CLO2: Fulfilling basic human needs using the nursing process (C1)

	CLO3: Student will be able to prepare a nursing care plan in accordance with nursing professional standards (C2)
Content	Students will learn about: - Application of the caring concept - Assessment procedures (anamnesis, physical assessment, and TTV) - Fingernail and toenail care procedures - Mobilization and ambulation procedures - O2 therapy procedures (cannulas, masks, etc.) - Personal care procedures: personal hygiene (bathing, shampooing, oral hygiene, vulva hygiene, etc.) - Procedure for installing a NGT and feeding via NGT, feeding via oral route - IV catheter installation and maintenance procedures, helping patients defecate using a bedpan - Simple wound care procedures - Medication procedures - Venous blood collection procedure - Suction procedures (oral and nasal) and chest physiotherapy/Oxygenation - Providing simple education/learning to clients/individuals - Implementation of therapeutic communication (creating an implementation strategy/SP) - Preparation of ASC based on basic nursing cases - Fulfillment of patient ADLs - Fulfillment of sleep and rest needs - Procedure for maintaining temperature (compress) - Fulfillment of psychosocial needs - Fulfillment of Universal Precaution needs
Examination forms	- Clinical Observation form - Multi-Source Feedback-360 degree - Case report form - Final seminar
Study and examination requirements	Study and examination requirements: - Students must be present 15 minutes before the activity begins, if students are late, they are required to report to the supervisor. - The presence of students must be 100% - Students are not allowed to leave the practice site except with the permission of the supervisor - All the assignments and log book must be collected a maximum of 1 week after the nursing management practice takes place. The score of late assignments will be reduced by 5% per day. - Students must switch off all electronic devices when shifting. - Students must inform the clinical preceptor and institution preceptor if they will not attend the shift due to sickness, etc. - Students must submit all class assignments before the deadline. - Students must attend the exam to get final grades. Form of examination: - Clinical Observation form - Multi-Source Feedback-360 degree - Case report form - Final seminar
