Cleverstore - Pending Update 8/2026

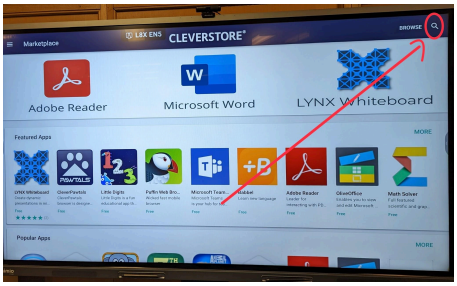

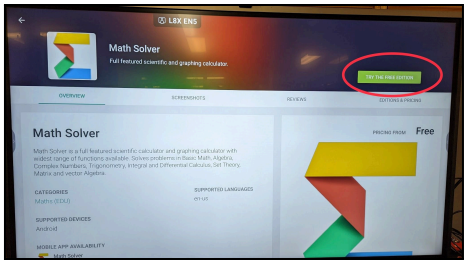

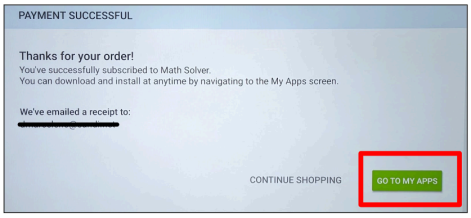

BoxLight displays have the capability of downloading apps that support Common Core State Standards through the Cleverstore. CleverStore has apps for just about every subject and grade level. All apps have three rules: no advertisements, no in-app purchases, and no inappropriate content.

Follow the directions below to create your account.

Step 1 On the bottom right corner of your BoxLight Board, select the waffle icon . Your app library should appear.	
Step 2 Select CleverStore from your app library.	
Step 3 Select **sign in.** This will open the Opera Browser to the Cleverstore sign in portal. Here, you can either sign into an existing Clever account, or Create an Account.	
Step 4 On the webpage, **sign in to your existing Cleverstore account**, **or select Create account** if you do not already have one. Then, type in your email address and select Sign Up.	 
Step 5 Once you have selected **Create Account**, you will receive an email from Cleverstore to the email used to create the account asking to Activate Account. Select Activate Account. If account has been previously created, proceed to **Step 7**	
Step 6 Proceed by filling in the required information in the form. Select, **Activate Account.**

Cleverstore

Step 7 Return to the Cleverstore app on your Boxlight board and sign-in. Agree to terms and your Cleverstore is active. You can select, search or browse by topic.	
Step 8 Once you have selected a desired app: Press the green **"Try The Free Edition"** button.	
Step 9 Complete your order by confirming items (the app is free, so you will not be charged) and select **GO TO MY APPS.** A receipt of your order will be sent to the email on file.	
Step 10 Select the app and select, **DOWNLOAD.** Once the download is complete, return to your BoxLight home screen, select the waffle icon, and open Math Solver.
