OBJECTIVE

Looking for a Product Management and Development position where I can use my experience, problem-solving abilities, and communication and analytical skills to help develop a product from ideation to customer distribution with lean principles in mind in order to create the most value for our customers.

EDUCATION

Purdue University, West Lafayette IN — *Bachelor of Science in Industrial Engineering and Management Minor*

AUGUST 2014 - MAY 2018

GPA: 3.09

EXPERIENCE

Miebach Consulting, Indianapolis IN — *Supply Chain Consultant*

JUNE 2019 - CURRENT

- Worked with project managers in developing strategic supply chain models to support the client's management decisions
- Developed and optimized supply & distribution network structures by evaluating its cost, service, and flexibility
- Defined the client's optimal warehousing and production locations in order to optimize their manufacturing and distribution footprint

Miebach Consulting, Indianapolis IN — *Supply Chain Analyst*

JUNE 2018 - JULY 2019

- Worked with project managers and senior consultants in developing strategic supply chain models by using technical skills to manipulate and analyze large datasets
- Helped with the decision-making process of our internal team by creating results that present both insightful data summaries and conclusions for the client

Finish Line, Indianapolis IN — *Retail Supply Chain Intern*

MAY 2017 - AUGUST 2017

- Provided time-saving training tools that provided associates, supervisors, and managers a visual guide to current productivity.
- Designed a method for corporate employees to have a better understanding and connection with Finish Line stores.

TEXPAC, Quito Ecuador — *Textile Process Control Intern*

JUNE 2016 - AUGUST 2016

- Implemented the ISO 9001 quality management system to enhance production processes for new and existing structures
- Reduced production time by 15% with the incorporation of real-time optimization processes on factory operations
- Created operational maintenance processes to ensure the machines worked properly in order to meet client requirements
