FINAL ROAD BLOCK

**Complete the crossword puzzle
about the immune system
without using notes or i-texts.**

**Complete the crossword puzzle
about the immune system
without using notes or i-texts.**

FINAL TASK

SEMESTER FINAL TASK

Amazing Race: FINAL TASK!

As we did in first semester, we will work in super groups to assemble a final exam review book for the topics of each chapter. For this project to work well, you **MUST** follow the directions and steps to complete your part of the book completely.

YOUR GROUP'S TOPIC IS: DNA Structure and Replication

YOUR GROUP's iPad NUMBER IS: 1

Task Part A: Create a storyboard of each page of your book.

- a. What will you include? How will you provide answers to the questions you ask?
- b. How will you provide links for the book when it is saved in PDF format?
- c. What apps will you use and on which pages?
- d. How are you dividing up the responsibilities?
- e. Have you cited all of your sources on the last page of your book?
- f. ***Once your storyboard is complete, have it checked by Mrs. G BEFORE moving to the iPad assembly. You will not receive full credit if you skip this step.***

Task Part B:

1. Open the Book Creator app. Read the tutorial if you need a refresher!
2. **Set your book format to SQUARE.**
3. **Set the title of your book as the Topic you are given. Put your first names only and bell on the cover of your book along with your topic.**
4. Use Explain Everything and Book Creator to make the content of your section of the book. If you are interested in added embedded hot-spots, we can use the ThingLink app.
5. You must include answers to any study questions you write.
6. You may add links to the book, but remember this will be saved as a PDF for people who cannot access as an ePub.
7. Show to Mrs. Glassman BEFORE you upload to double check all settings.

Task Part C:

1. **Upload the final product to Drive as an epub.** Please ask questions when you get to this point if you are unsure of what to do.
2. Set the title as: Question # Topic Name
2. Share the epub file with me. eglassman@norfolkacademy.org. I will then add this to the master book on my book creator account and share it back to you in both epub and pdf formats. You will then be able to see the book as an epub on ibooks or book creator or as a pdf when

you open it in Drive or Evernote. You must put the final class book I send you in your Evernote portfolio as the final step of the project.

Amazing Race: FINAL TASK!

As we did in first semester, we will work in super groups to assemble a final exam review book for the topics of each chapter. For this project to work well, you **MUST** follow the directions and steps to complete your part of the book completely.

YOUR GROUP'S TOPIC IS: RNA and Protein Synthesis

YOUR GROUP'S IPAD NUMBER IS: 2

Task Part A: Create a storyboard of each page of your book.

- a. What will you include? How will you provide answers to the questions you ask?
- b. How will you provide links for the book when it is saved in PDF format?
- c. What apps will you use and on which pages?
- d. How are you dividing up the responsibilities?
- e. Have you cited all of your sources on the last page of your book?
- f. ***Once your storyboard is complete, have it checked by Mrs. G BEFORE moving to the iPad assembly. You will not receive full credit if you skip this step.***

2. Set the title as: Question # Topic Name
2. Share the epub file with me. eglassman@norfolkacademy.org. I will then add this to the master book on my book creator account and share it back to you in both epub and pdf formats.

You will then be able to see the book as an epub on ibooks or book creator or as a pdf when you open it in Drive or Evernote. You must put the final class book I send you in your Evernote portfolio as the final step of the project.

Amazing Race: FINAL TASK!

As we did in first semester, we will work in super groups to assemble a final exam review book for the topics of each chapter. For this project to work well, you **MUST** follow the directions and steps to complete your part of the book completely.

YOUR GROUP'S TOPIC IS: Reproductive System

YOUR GROUP's iPad NUMBER IS: 15

Task Part A: Create a storyboard of each page of your book.

- a. What will you include? How will you provide answers to the questions you ask?
- b. How will you provide links for the book when it is saved in PDF format?
- c. What apps will you use and on which pages?
- d. How are you dividing up the responsibilities?
- e. Have you cited all of your sources on the last page of your book?
- f. ***Once your storyboard is complete, have it checked by Mrs. G BEFORE moving to the iPad assembly. You will not receive full credit if you skip this step.***

Task Part B:

1. Open the Book Creator app. Read the tutorial if you need a refresher!
2. **Set your book format to SQUARE.**
3. **Set the title of your book as the Topic you are given. Put your first names only and bell on the cover of your book along with your topic.**
4. Use Explain Everything and Book Creator to make the content of your section of the book. If you are interested in added embedded hot-spots, we can use the ThingLink app.
5. You must include answers to any study questions you write.
6. You may add links to the book, but remember this will be saved as a PDF for people who cannot access as an ePub.
7. Show to Mrs. Glassman BEFORE you upload to double check all settings.

Task Part C:

1. **Upload the final product to Drive as an epub.** Please ask questions when you get to this point if you are unsure of what to do.
2. Set the title as: Question # Topic Name
2. Share the epub file with me. eglassman@norfolkacademy.org. I will then add this to the master book on my book creator account and share it back to you in both epub and pdf formats.
