

You can find the new PC version of Critical Mix here
The new version has MANY new mechanics, influenced by games
such as Devil May Cry

(PC - New) Kingdom Hearts: Critical Mix Plus

<https://www.nexusmods.com/kingdomheartsfinalmix/mods/93>

(Emulator - Old) Kingdom Hearts: Critical Mix PCSX2

<https://docs.google.com/document/d/1J-tW5WuIN8BT--yLzpgUV26Ndnv5yohXKorRUyNKsqM/edit?usp=sharing>

The PC and Emulator versions of the mod
are *extremely different*.

Both of them have exclusive features that
only exist in that version.

It's worth trying both versions if you've
only played one of them.
