

Second Grade e-Learning Schedule

Science 6/8 -6/12

Tuesday 6/9	<p>Essential Question: What makes flowers bloom in Spring?</p> <ol style="list-style-type: none">1. Watch the Mystery Science : How do flowers bloom in spring?2. Write down 1 question that the video made you curious about. You can post your question in the comment section.3. Try to print and complete the extension activity (OPTIONAL)
Friday 6/12	<p>Essential Question: Why do we need biodiversity in our own backyard?</p> <p>We learned that biodiversity is how living and non-living things interact. Biodiversity is necessary for a healthy environment. Today you are going to explore your backyard and find out healthy our environment is. <u>As you walk around you will look at all the different types of plants and animals/bugs that you see?</u></p> <p>Have Fun!</p> <ol style="list-style-type: none">1) Click here to get to the activity in Google Classroom.
Additional Practice/ Activities OPTIONAL	<p>Extra: Play some science games by clicking on the link.</p>
