

AP Biology: Mr. Ricci
SECOND SEMESTER WEEKLY ASSIGNMENTS

The weekly schedule is set up for all students, both in-person and virtual. Students learning virtually will follow along throughout the lesson via Zoom, which will also serve as a way to mark attendance. I will share my screen when appropriate for those at home. If a student learning virtually has a question, they may type it into the chat, and I will answer orally or in a typed response. I will answer virtual questions as soon as possible during the lesson.

Week of 4-26-21	DAY 1: Monday/Tuesday	DAY 2: Wednesday/Thursday	FRIDAY (30 minutes)
