

HIDDEN FIGURES DAY, THURSDAY, FEBRUARY 13, 2025

Thursday, Feb. 13 is Hidden Figures Days at Haines! We will be showing students the movie *Hidden Figures* and have designed multiple learning activities to go along with the movie. We chose this movie because the learning potential it provides is in direct correlation to many curricular areas. This is a movie that will support the Biography reading unit which is taught through the lens of overcoming obstacles. It also links to the space unit currently being studied in Science and exposes students to the role of mathematics in possible careers, all of which are goals in our curriculum. Students will go through 5 pre-teaching stations, listed below, before viewing the movie then will participate in reflection and small group discussions afterwards. Please fill out and return the permission slip below, which all students must have signed in order to view the movie.

- Space Mission History-viewing “real” footage from time period
- Hidden Figures Trivia- vocabulary preview
- Historic Setting/Time Period Background
- Music and Lyrics Analysis of theme song
- The Calculator Challenge- hand calculation vs. calculator showdown
