

Utah Tech University

Solicitations and Sole Source Postings

The University prefers to purchase items/services available on State of Utah Contracts whenever possible. Our first step in purchasing anything is to search the State Contracts for our needs. We do this by using this site: <https://statecontracts.utah.gov/Home/Search>

We recommend all vendors register with the State so they can be informed of any solicitations you're interested in: [CLICK HERE](#)

For more information visit The State of Utah's Division of Purchasing's website for Vendors: [CLICK HERE](#). If that link ever breaks, just google "Utah State Purchasing" and look for the "for vendors" section

The University will post below any Sole Source purchases over \$50,000.00 for a period of 7 calendar days to allow for public inspection. If a vendor has any valid reasons the University should not proceed with the sole source declaration they must notify malia.tafua@utahtech.edu within 7 days of the posting.

To View Utah Tech Solicitations

The University now posts all solicitations on Bonifire (formerly Jagger). This is the same place the State and many other agencies use to post their solicitations. Follow the steps below to view our current solicitations:

Find the link on the State Purchasing site "*view current business opportunities*" ([CLICK HERE](#))

In the "keyword" search bar, type "Utah Tech" and click "Search" (for old solicitations you can search for "DSU")

To view any of the solicitations it will make you register if you have not already done so. This registration is the same registration mentioned in the above section. Registration is free.

If you have any questions, contact malia.tafua@utahtech.edu

Sole Source Purchases

The University will post below any Sole Source purchases over \$50,000.00 for a period of 7 calendar days to allow for public inspection.

If a vendor has any valid reason the University should not proceed with the sole source declaration they must notify malia.tafua@utahtech.edu before the 7th day from the posting date.

Date	Vendor	Description	Files
